Press Release – Darrell VanHorn to Serve as Edge Technologies Regional Sales Manager for Midwest

St. Louis, MO – Darrell VanHorn will serve as the new Regional Sales Manager for the Midwest, covering Illinois and Wisconsin. In this role, VanHorn will provide sales and technical support for Edge Technologies' premier line of products, including the two-tier

line of magazine bar feeders, Vortex coolant mist filtration systems, and Schlenker bar feeder pusher collets, lathe collets, and guide bushings.

VanHorn brings a wealth of experience to Edge Technologies, holding a Bachelor of Science degree in Industrial Technology from the University of Wisconsin - Platteville. With a career deeply rooted in the manufacturing sector, encompassing the injection mold industry and machine tool distribution, VanHorn has accumulated over 20 years of technical sales experience. His expertise in supporting

distribution partners and delivering exceptional customer service to end users is unparalleled. His passion for the industry further enhances his capability to serve Edge Technologies' clientele effectively.

In addition to his professional accomplishments, VanHorn is actively involved in community services in Lake Geneva, dedicating time to various local initiatives and contributing to the well-being and development of the community. Outside of his professional and community endeavors, Darrell enjoys spending time with his wife boating on Geneva Lake and golfing.

About Edge Technologies

Edge Technologies is a solutions provider of CNC lathe automation with a focus on magazine bar feeding and unloading systems. The company's two-tiered lineup of models is by far the largest in the industry — supported by a North American field service network and large inventory of parts and accessories, including pusher and lathe collets. The company also offers coolant mist and oil mist filtration systems and workholding for all machine tools. Headquartered in St. Louis, MO, Edge Technologies is closing in on 40 years in the bar feeder business, an average employee tenure of 9.7 years, and over 19,000 successful installations. Edge is unmatched when it comes to industry knowledge and expertise in magazine bar feeding.
