Press Release – Sales and Service Engineer Brandon Wilson’s Territory Expands to Cover Michigan

St. Louis, MO – Sales and Service Engineer Brandon Wilson's territory has expanded to cover Michigan as part of his region, in addition to growing our Eastern Canadian Territory.

He succeeds Regional Sales Manager Carl Miller, who will continue servicing the Ohio Valley. Wilson was promoted in 2023 as Sales and Service Engineer, a brand-new role in Edge Technologies.

“Since I’ve come on as Sales and Service Engineer, I’ve leaned on over 20 years of experience to serve my territory in Eastern Canada,” Wilson said. “I’m excited to develop new relationships in Michigan and continue to provide the excellent service that Edge is known for.”

Wilson brings over 20 years of experience in the machining and

manufacturing industry: programming and tooling CNC machines at Midwest Instruments since September 2002, serving as a Production Operator over Vehicle Assembly at Ford Motor Company, and then serving as a field service technician with Edge Technologies for 2 ½ years before moving into a new role.

In his free time, Wilson spends time with his wife and daughter. He also enjoys hunting, fishing, and hot air ballooning.

About Edge Technologies

Edge Technologies is a solutions provider of CNC lathe automation with a focus on magazine bar feeding and unloading systems. The company's two-tiered lineup of models is by far the largest in the industry — supported by a North American field service network and large inventory of parts and accessories, including pusher and lathe collets. The company also offers coolant mist and oil mist filtration systems and workholding for all machine tools. Headquartered in St. Louis, MO, Edge Technologies is closing in on 40 years in the bar feeder business, an average employee tenure of 9.7 years, and over 19,000 successful installations. Edge is unmatched when it comes to industry knowledge and expertise in magazine bar feeding.
